# Health, Safety and Wellbeing Policy

Health, Safety and Wellbeing Service

Supporting you in managing Health, Safety & Wellbeing

## 1. Success Indicators

The school has a Health, Safety and Wellbeing policy which:

- Provides an overview of the school policy on health, safety and wellbeing.
- Outlines the arrangements the school has in place for health, safety and wellbeing.
- Assigns roles and responsibilities to key staff in the school.
- Is monitored and reviewed regularly by senior leaders.

## 2. Overview

All schools are required to have a Health, Safety and Wellbeing Policy in place.

The School's Health, Safety and Wellbeing Policy should be developed by the Headteacher, members of the School Leadership team in conjunction with the Governing Body/Trust/Academy Board.

## 3. Employer responsibilities

Where the school/sponsor/board of governors is the direct employer of school staff (such as in Academies, Trust Schools, Foundation Schools and Voluntary Aided (VA) Schools) the school must have a Health and Safety Policy in place to comply with the Health and Safety at Work Act. This can be in any format.

Where a County Council is the employer of school staff, such as in Maintained or Community Schools, Voluntary Controlled (VC) or Short Stay Schools it is recommended that schools use the Health, Safety and Wellbeing Policy template to develop their Health, Safety and Wellbeing Policy.

## 4. Day to day management of Health, Safety and Wellbeing

The organisation and arrangements which support the H,S and W Policy (day to day management of Health & Safety) are the responsibility of the Headteacher/Principal and the School Senior Leadership Team (supported and monitored by the Governing Body).

Note that the Management of Health and Safety at Work Regulations requires employers to appoint one or more competent people to support their management of health and safety. This may be done by appointing an external provider to provide this advice.

## Occupiers Liability

Regardless of the status of the employer, all school governing bodies have health and safety responsibility as the **occupier** of the premises and therefore must take steps to ensure that the premises are managed effectively to reduce risk to those using, entering or accessing the premises at any time for any reason.

## 5. Template for Health, Safety and Wellbeing Policy

The Staffordshire Health, Safety and Wellbeing Service provide a template Health, Safety and Wellbeing Policy for schools to customise and adapt for their own use. This is on the next page.

# Health, Safety and Wellbeing Policy

## *Hayes Meadow Primary School*

The policy has 4 parts;

**Part A** - Introduction

**Part B** - The Health and Safety Policy Statement

**Part C** - Management Arrangements

**Part D** - The detailed arrangements & procedures for Health, Safety and Wellbeing within Hayes Meadow Primary School

**Part E** - The Key Performance Indicators.

## **A. Introduction**

This policy statement complements (and should be read in conjunction with) the SCC Health and Safety Policy. It records the local organisation and arrangements for implementing the SCC policy.

## **B. Policy Statement**

The requirement to provide a safe and healthy working environment for all employees is acknowledged and the Hayes Meadow Primary School Governing Body/ Senior Leadership Team recognise and take responsibility for compliance with the statutory duties under the Health and Safety at Work etc. Act 1974.

The Governing Body will ensure so far as is reasonably practicable that:

- all places and premises where staff and pupils are required to work and engage in school/academy activities are maintained in a condition which is safe and without risk to health. (This includes the health and safety of persons on the premises or taking part in educational activities elsewhere.)
- all plant and equipment is safe to use and that arrangements exist for the safe use, handling and storage of articles and substances at work.
- appropriate safe systems of work exist and are maintained.
- sufficient information, instruction, training and supervision is available and provided to ensure that staff and pupils can avoid hazards and contribute in a positive manner towards their own health and safety and others.
- a healthy working environment is maintained including adequate welfare facilities.

In addition to the above the school will ensure that so far as is reasonably practicable that the health and safety of other non-employees is not adversely affected by its' activities.

Employee involvement is an important part of managing safely, and consultation on health and safety with employees and employee representatives forms part of this policy.

This policy statement and the accompanying organisational arrangements supersede any previously issued.

## **E. Health and Safety Key Performance Indicators (KPI's)**

It is important that school leaders, governors and managers can monitor the health and safety performance of their school in order to determine where progress is being made and where further actions and resources may be required.

KPI	Success criteria
All staff are aware of their roles and responsibilities.	Staff are able to talk to SLT and governors about their roles. Procedures are followed and responsibilities are understood.
Risk assessments ensure all pupils and staff are safe when carrying out activities/ events.	Staff are able to take ownership of risk assessments. Quality risk assessments clearly identify risk and how staff expect to manage that risk.
Maintain statutory compliance and record keeping.	All responsible staff are able to provide clear records of checks and procedures and know when next checks and tests are required. All external checks for water/ gas etc are kept up to date and in order.
Ensure all staff have the necessary training to complete their roles.	Ensure clear training records identify what training staff have received and when refresher training is required. Plan for succession planning for key roles and responsibilities.

The Health Safety and Wellbeing Service may also request feedback on certain KPI's more details of these can be obtained from your Health and Safety Adviser.
